Verimoto guide for asset inspections with Angle Finance

- Verimoto is an online tool to assist with quicker, cost effective and less risky asset inspections.

- The asset inspection is initiated by the broker and completed by the vendor/asset owner, who provides photos and supporting documentation, all of which are uploaded into the Verimoto portal via the App

- The Verimoto team and online services verify the information provided by the asset owner a generate an inspection report

- You can view the completed inspection report online and export/send it directly to Angle Finance

- If you have not used Verimoto before, please use the following link to register: https://info.verimoto.com/angle-finance

- When you have contact details for the asset owner/vendor, follow the step by step guide on the next page to initiate and the inspection

- **Remember to enter the Angle Finance Application number (CA000XXXX) in the Lender Reference field**

- Broker User Guide/FAQs can be accessed here: https://help.verimoto.com/support/solutions/24000002036

- Video guide to how Verimoto works can be accessed here: https://www.youtube.com/watch?v=M67Biv1tKJM
